WORK EXPERIENCE

Owner / Developer June 2016 to Present

MySongList LLC - Columbus, OH

Created, designed, and developed a web and mobile application that allows performing musicians to interact with their audience while building their social media presence and giving them a new income stream. MySongList serves 550 professional musician accounts and 3500 audience accounts with over 2000 unique users per month. This product is available for download in the Apple Store and Google Play.

Owner / Developer May 2018 to April 2019

PTT LLC - Columbus, OH

PTT is a crypto-currency financial tracking interface. After fast success and popularity of the first version, two co-developers were hired as well as a seven person product support team. When the second version was launched, this product was serving over 15000 customers. PTT LLC's exit plan was fulfilled when the product was bought out by another company.

VP / Full Stack Developer January 1999 to June 2013

Ultima Real Estate - Dallas, TX

Responsible for full-stack development of web systems used by thousands of real estate agents and clients. Helped pioneer many web technologies that are used today by the biggest names in the real estate industry. Hired as the Web Developer in 1999, was promoted over the years to many different titles including IT Manager, Office Manager, and ultimately VP while directing development of 14 franchises. Recruited over 400 real estate agents into the company primarily using web marketing. Trained and supported the agents for all technology products provided including the Microsoft Office Suite, Windows OS, IDX, MLS, and many others.

Freelance Web Developer 1997 to Present

Brian Mechura - Columbus, OH

Built and maintained 70+ websites for various clients. These projects span a wide range of industries including: retail products, real estate, social media, financial products, city planning, and others.

Web Developer 1997 to 1999

City of Rowlett Texas - Rowlett, TX

Hired as a contract web developer for the City of Rowlett during the final years of high school. Responsible for front-end design and development.
